

VIRTUAL SUMMER CONFERENCE

THE NEW PARADIGM OF TREATMENT FOR THE HEADACHE PATIENT

DISCLOSURE

PROGRAM OVERVIEW

In the United States, 1.4 percent of all visits to office-based physicians are due to headache, which represents approximately 12 million physician visits in one year. According to recent studies, 8.7 million females and 2.6 million males in the US alone experience migraine. Existing and ongoing research activity in the field of headache has produced clinical data of which primary care providers should be cognizant in order to provide optimal care to headache sufferers. These data have significant implications for diagnosis and treatment and may challenge current assumptions about the role of healthcare professionals in the management of primary headache disorders. Practitioners should be knowledgeable about new findings concerning pharmacological agents used for the treatment of headache, including new formulations of existing medications and those recently available for headache management.

LEARNING OBJECTIVES

After participating in this educational activity, participants should be better able to

1. Incorporate the differential diagnoses of headache disorders in order to choose the best treatment strategies
2. Analyze safety and efficacy data for new and emerging therapies in the treatment of migraine
3. Develop and implement treatment plans in line with standards of practice for acute management of migraine
4. Develop and implement preventive treatment as migraine is progressing and transforming
5. Use effective therapeutic tools that address the gender-specific challenges of treating women with migraine

ACCREDITATION/DESIGNATION STATEMENTS

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Forefront Collaborative and Diamond Headache Clinic Research & Educational Foundation. Forefront Collaborative is accredited by the ACCME to provide continuing medical education for physicians.

UNLABELED USE DECLARATION

During their presentation, faculty may discuss unlabeled or investigational use which is not approved for a commercial product. Faculty members are required to disclose this information to the audience when referring to an unlabeled or investigational use.

STATEMENT OF DISCLOSURE AND INDEPENDENCE

Educational activities provided by Forefront Collaborative must demonstrate balance, independence, and scientific rigor. All those in a position to control the content of an activity must disclose all relevant financial relationship(s) with commercial interest(s)*. For this educational activity, all conflicts of interest have been resolved through peer review and revisions to ensure independence, evidence base, fair balance, and absence of commercial bias. Disclosures appear below as they were at the time of the event.

**The ACCME defines a commercial interest as any entity producing, marketing, reselling, or distributing health care goods or services consumed by or used on patients. The ACCME does not consider providers of clinical service directly to patients to be commercial interests—unless the provider of clinical service is owned, or controlled by, an ACCME-defined commercial interest.*

The views and opinions expressed in this activity are those of the faculty and do not necessarily reflect the views or recommendations of Forefront Collaborative.
